Healthcare's Competition Conundrum

Cooperative inter-organizational strategies in competitive healthcare markets

1. Onderzoekers hebben te weinig aandacht voor de interactie tussen het beleidsniveau, organisatieniveau, en uitkomstenniveau (*dit proefschrift*).
2. De concentratiegraad van een zorgmarkt schetst een incompleet en misleidend beeld van de werkelijke marktverhoudingen binnen die markt (*dit proefschrift*).
3. Verschillende vormen van samenwerking tussen zorgaanbieders dienen strikt aan de mededingingswet getoetst te worden (*dit proefschrift*).
4. Verzekeraarsdata vormen een van de belangrijkste en meest onderbenutte bronnen door Nederlandse gezondheidswetenschappers (*dit proefschrift*).
5. In het huidige zorglandschap zijn netwerken het meest relevante niveau van onderzoek naar de organisatie van zorg (*dit proefschrift*).
6. In tegenstelling tot hoe het Nederlandse zorgsysteem internationaal scoort, waarden burgers onze verworvenheden onvoldoende.
7. Despite its clear importance, the functioning of healthcare markets has received relatively little attention in health policy spheres (*Gaynor et al. 2015*).
8. De prioriteit ligt niet bij een nieuw vorm te geven zorgstelsel op macroniveau maar bij de patiënt die meebeslist over zinvolle en passende zorg op microniveau (*Margot van der Starre, 2016, toenmalig directeur Nederlandse Vereniging van Ziekenhuizen*).
9. The first draft of anything is shit (*Ernest Hemingway*).
10. Think only about the best, work only for the best, and always expect the best (*Carlos Gracie sr., patriarch of Brazilian Jiu Jitsu*).
